OBJECTIVE

Motivated MCA student and aspiring Software Developer with a strong foundation in programming, data structures, and full-stack development. Passionate about building practical and user-friendly applications while continuously improving problem-solving and technical skills. Experienced in working on academic projects, internships, and hackathons using technologies like MERN Stack, Spring Boot, Firebase, and REST APIs. Interested in exploring emerging technologies, learning new tools, and contributing to innovative and impactful software solutions while growing as a developer.

EDUCATION

Master of Computer Applications (MCA) Bharati Vidyapeeth Institute of Management and Information Technology, Mumbai University	2025 - 2027
Bachelor of Computer Application (BCA) Nagpur University CGPA: 8.00	2021 – 2024
Higher Secondary (Science) Maharashtra State Board Percentage: 82.33%	2020 - 2021
Secondary School Central Board of Secondary Education CGPA: 7.5%	2018 - 2019

TECHNICAL SKILLS

- **Programming Languages:** Java, C++, JavaScript.
- **Web Development:** Node.js, React.js, Tailwind CSS, HTML, CSS, XML.
- **Database Technologies:** MongoDB, MySQL, Postgresql.
- **Tools & Design:** Git, GitHub, Figma, Canva, Vercel, VS Code, Cursor, Antigravity
- **Core Concepts:** Data Structures & Algorithms, OOP, Problem Solving

PROJECTS

Ambulance Booking System: <https://github.com/Prernadikondwar/Ambulancebooking-System>

A full-stack real-time ambulance booking and dispatch system built with Flask (Python) and React (Vite). Features GPS-based ambulance assignment, live driver tracking, OTP-verified patient pickup, and a comprehensive trip management system.
(April 2026 – Ongoing)

NexTalk-A Multilingual Video Conferencing Platform: <https://github.com/Prernadikondwar/Nextalk>

NexTalk is a web application that allows users who speak different languages to converse with ease by translating the audio on the fly and speaking the translated audio in the native language of the user as well as provide them with translated captions.
(Dec 2025- Jan 2026)

Rural Health Connect : <https://github.com/Prernadikondwar/rural-health-connect>

Built a digital healthcare ecosystem for rural areas in a 24-hour hackathon using React.js and modern web technologies. Developed three integrated portals—Patient, PHC Hub, and Doc- tor—to support patient registration, AI-based monitoring, teleconsultation, and digital prescriptions, aiming to improve healthcare accessibility in underserved communities. **(April 2026)**

Prefolio-My Own Terminal Portfolio : <https://github.com/Prernadikondwar/Prefolio>

Built Prefolio, a terminal-style personal portfolio with an additional graphical interface using HTML,CSS,and Javascript. Implemented an interactive command- line UI along with a traditional portfolio layout, creating a lightweight, fast-loading static website to showcase projects and resume. **(Nov 2025)**

WORKSHOP & SEMINARS

- Attended a seminar on **Cybersecurity**, gaining insights into modern security challenges and practices.
- Participated in a seminar on “**Turning AI Models into Real-World Applications**”, understanding practical implementation of AI solutions.
- One-Day Workshop on **Spring Boot** Organized by Bharati Vidyapeeth Institute of Management and Information Technology. Gained practical knowledge of REST APIs, dependency management, project structure, and database connectivity for building scalable Java-based web applications.

CERTIFICATIONS

- **Coursera** – Python data structures **(March 2023)**.
- **Cognizant** – Artificial Intelligence Virtual Experience Program **(Jan 2023)**.
- **Open Weaver** – Introduction to Programming Using HTML and CSS **(Apr 2023)**.

ACHIEVEMENTS

- Participated as an Open Source Contributor in the **GirlScript Summer of Code (GSSOC 2023)**, where I collaborated with developers on real-world open-source projects. Contributed by understanding existing codebases, resolving issues, improving project functionality, and working with version control tools like Git and GitHub.
- Participated in the International **UAI Hackathon 2026** held at Universal AI University, where my team developed “**Rural-Health-Connect**” — an AI-powered Rural TeleHealth Solution aimed at improving healthcare accessibility in underserved rural communities.
- Received a Certificate of Appreciation for serving as a Student Volunteer at **ICET 2026 (International Conference on Emerging Trends)**, organized by Bharati Vidyapeeth’s Institute of Management and Information Technology. Recognized for active participation, event coordination, teamwork, and contribution to the successful execution of the conference held on 10th–11th April 2026.
- Advanced to the Final Round of the Innov8 Hackathon 2026 during **Pixels 2026**, organized by SIES College of Management Studies. Recognized for demonstrating innovation, problem-solving, teamwork, and creativity while developing solutions for real-world challenges in an 8-hour competitive hackathon environment.

EXTRACURRICULAR ACTIVITIES

- Received Certificate of Appreciation from **QUASTECH** for exceptional contribution and dedicated support during the **Job Fair** at Bharati Vidyapeeth Institute of Management & Information Technology.
 - Led the cultural team and technical event during the college event “**MANTHAN**” and coordinated activities for the singing competition.
-
